# You & Technology?

## **Heavy User:**

Featured-packed mobiles, constantly online, web 2.0 active...

## **Middle-of-the-road User:**

Use technology, especially for communication. Can find connectivity intrusive and information a burden.

**Limited User:** Modern gadgetry is at or near the periphery of your life. Maybe useful but mostly content with telephone and old media.

Ooh, I'm about to sit down to do the MBTI test. Feels like a strange hybrid of the quizzes in *Cosmo* and the SATs!

## In Search Of Lost Time

3  
Mar  
2007

This is intriguing - apparently (East) Asian people age more slowly than other races. Maybe they could look after the jobs that require the long hours, and the rest of the world could do the normal hour jobs, so that we can distribute the wrinkles a little more evenly...? Or you could just reach for the Botox.

The 2007 Finalists are Zhu Song & Hasham Khan. Follow their job-hunt here on The Finalists' blog.

by the beginning of this century the development was almost complete, although small areas of initial development continue.

The original [[16th century]] Frogshole farm building, from the Maidenbower farm that gave the area its name, remains as the [[public house]] for the neighbourhood. It was refurbished and opened in [[1994]]. On [[8 February]] [[2007]] it suffered a major fire and is currently closed.<ref>{{cite web|title=BBC News: Firefighters tackle blaze in pub|url=http://news.bbc.co.uk/1/hi/england/sussex/6343489.stm}</ref>

A secondary school, the [[Oriel High School, Crawley|Oriel High School]], has been built at Maidenbower under the [[Private Finance Initiative]] where a private company have designed and built the school and now provide facilities management for the next 25 years. West Sussex County Council provide all the educational services and staff. Maidenbower also has two infant schools and a large junior school.

There is also a parade of shops and a community centre that also provides daycare facilities for elderly people and people with disabilities.

Close to one of the entrances roads to Maidenbower leading from the [[Balcombe]] Road a large piece of public art was installed in September 2006. A community project, it was created in five pieces by the four schools in the neighbourhood and one piece by the community. The pieces fit together like a giant [[jigsaw puzzle]] to form an outline representing a map of the neighbourhood. The streams that run through it create the joins between each of the pieces. The overall theme of the piece is he history and development of Maidenbower.
