JISC Grant Funding 20/11: Embedding impact analysis in research using BCE practitioners.

The Joint Information Systems Committee (JISC) invites institutions to submit funding proposals for partnership projects to embed good practice in impact analysis in research departments, utilising the expertise of Business and Community Engagement practitioners and information management specialists.

Funding of up to £30,000 per project is available to support three-way collaborative partnerships comprising:

- Research groups seeking to develop their capabilities in analysing and articulating the impact and benefits of their research;
- Business and Community Engagement (BCE) practitioners with expertise in identifying external impact and benefits, and designing institutional services for this purpose;
- Leading research information management expertise and resources for impact evidence.

The deadline for proposals is 1 March 2012. Full information on this funding call can be found [here](#).
