The Office of the Special Representative of the UN Secretary-General on Violence against Children organised [a global expert meeting on bullying and cyber-bullying](#), held on 9-10 May at the UNICEF-Innocenti Research Center, Florence. Sonia Livingstone presented the Global Kids Online project at the meeting, drawing on findings from [EU Kids Online](#) and [Kids Online Brazil](#). Among other things, these show how cyberbullying represents a growing proportion of bullying overall, as well as the value of adopting a cross-country comparative approach.
