

Globalisation, media and UK communities

 blogs.lse.ac.uk/polis/2010/11/30/globalisation-media-and-uk-communities/

2010-11-30

I have written [a paper commissioned as part of JRF's programme on Globalisation](#), which explores and promotes awareness of the impacts of globalisation on the UK and focuses on communities and people in poverty. It:

- examines how global media has changed and its impact on low-income groups in the UK;
- explains how communities in the UK benefit from and influence their global news consumption; and
- discusses the potential widening of the digital divide.
